This listing of claims will replace all prior versions, and listing, of claims in the application:

**Listing of Claims:**

1. (currently amended)  A hand-held calculator comprising a processor, memory, and a medium storing software that causes the processor to perform the following steps:

    a. create a time management entry in a time management application;

    b. attach a link to the time management entry; and

    c. display the link on a display of the hand-held ~~computer device~~ calculator, wherein an update through the display relating to the link ~~auto~~ automatically updates the time management entry.

2. (Previously amended)  The hand-held calculator of claim 1 wherein the time management entry is an appointment in the time management application.

3. (Previously amended)  The hand-held calculator of claim 1 wherein the time management entry is a task in the time management application.

4. (Previously amended)  The hand-held calculator of claim 3 wherein the time management application is a calendar, and wherein the task is listed in an assignments due list managed by the calendar time management application.

5. (Previously amended)  The hand-held calculator of claim 4 wherein time periods in the calendar time management application are class periods.

6. (previously amended) The hand-held calculator of claim 1 wherein the attached

link's association with the time management entry is indicated with a graphical icon

in the application near the time management entry.

7. (previously amended) The hand-held calculator of claim 6 wherein a user is able

to activate the application associated with the attached link and view the attached

link by selecting the graphical icon.

8. (currently amended) A hand-held calculator comprising:

     a display;

     a processor;

     a memory coupled to the processor; and

     a storage medium coupled to the processor including a software program that,

upon execution:

          i. creates a time management entry in a time management application;

          ii. attaches a link to the time management entry; and

          iii. displays the link on the display of the hand-held ~~computer device~~

calculator, wherein an update through the display relating to the link auto

automatically updates the time management entry.

9. (Previously amended) The hand-held calculator of claim 8 wherein the time

management application is a calendar, and wherein the time management entry is

an appointment in the calendar time management application.

10.  (Previously amended)  The hand-held calculator of claim 8 wherein the time management application is a calendar, and wherein the time management entry is a task in the calendar time management application.

11.  (Previously amended)  The hand-held calculator of claim 10 wherein the task is listed in an assignments due list managed by the calendar time management application.

12.  (Previously amended)  The hand-held calculator of claim 11 wherein time periods in the calendar time management application are class periods.

13.  (previously amended)  The hand-held calculator of claim 8 wherein the attached link's association with the time management entry is indicated with a graphical icon in the application near the time management entry.

14.  (previously amended)  The hand-held calculator of claim 8 wherein a user is able to activate the application associated with the attached link and view the attached link by selecting the graphical icon.

15-21.  (cancel)
